

From The Editor

Euras Journal of Engineering and Applied Sciences (EJEAS), is a peer-reviewed academic journal, establishing a solid platform for all academicians, consultants, researchers, and those who have a strong interest in global current issues and trends in engineering and applied sciences. Euras Journal of Engineering and Applied Sciences is based on engineering and applied sciences; artificial intelligence, cybersecurity, environmental sciences, food and food safety, biotechnology, material science and composites, nanotechnology, energy technologies, electronics, robotics, thermal sciences, earthquakes – structures – foundation and earth Sciences studies. Subject areas could be as narrow as a specific phenomenon or device or as broad as a system.

EJEAS was established with the intention of promoting scholarly communication all over the world in a more effective manner. Our aim is to establish a publication that will be abstracted and indexed in the Engineering Index (EI) and Science Citation Index (SCI) in the near future. The journal has a short processing period to encourage young scientists.
